

# ***Amador County Plan***

# ***For Expelled Youth***

## **General Details**

### **Education Code §48926**

Each county superintendent of schools in counties that operate community schools pursuant to Section 1980, in conjunction with superintendents of the school districts within the county, shall develop a plan for providing education services to all expelled pupils in that county.

### **Education Code §48916.1**

a) At the time an expulsion of a pupil is ordered, the governing board of the school district shall ensure that an educational program is provided to the pupil who is subject to the expulsion order for the period of the expulsion, but only to the extent funds are appropriated for this purpose in the annual Budget Act or other legislation, or both.

## Details

Amador County Unified School District is committed to providing educational opportunities for all of our students that fit the continuum of care and academic rigor evident in all of our programs.

Amador County has a small number of students who experience behavior patterns or incidents for which expulsion is necessary. While this is a positive aspect to our early intervention strategies – it creates a situation where the development of either district or county specific classes or programs for expelled students becomes not only a geographical but a financial challenge.

Amador County strives to be pro-active in the recognition of problems in students and to offer interventions that include student study teams, academic and emotional assessments, parent support meetings, in-school suspension, off-campus suspension, special education services, after school activities, conflict management, and student behavior and discipline contracts.

### Existing Educational Alternatives for Expelled Youth

Amador County Unified School District is located within Amador County and offers the following options for expelled youth:

1. Suspended expulsion with placement on his/her home school campus under formal terms of: probation, rehabilitation and attendance.
2. Suspended expulsion with placement on a different campus under formal terms of: probation, rehabilitation and attendance.
3. Suspended expulsion with placement on District Contracted Independent Study; with parent approval.
4. Expulsion with referral to the Amador county Office of Education Community School Program.
5. Expulsion with referral to the Amador County Office of Education Contracted Independent Study; with parent approval.

### Gaps in Educational Services

1) A student could be expelled from the District under Education Code §48915 and referred to either a Community Day School, or Court and Community School program. This student could then commit another violation of Education Code §48915, or simply not attend, and ultimately be referred back to the original District.

2) small school districts, such as Amador County, generally expel very few students during the course of a school year; so few students are expelled that having a special class or program for such students, located in each district, is not financially or geographically possible;

3) students, who are expelled by individual small school districts vary as to age, grade level, and expulsion offenses. The wide range of age, grade-level, and seriousness of offense make it difficult to provide appropriate programs for these districts;

4) there are significant geographical distances between sites, thus county operated classroom sites/programs for Amador County Unified School District would require either extensive busing, which is not financially feasible for the county, or parent provided transportation, which is often impossible for the parents;

5) younger students are being expelled by the larger school districts. These younger students cannot attend the programs designed for middle and high school students. The numbers of these elementary school expelled youth are growing, but generally are not enough to develop an elementary school classroom or program;

6) the Community Day School option for expelled students, as described in current California Education Code, is difficult for Amador County to develop due to the following reasons:

a) the six (6) hour, or 360 minute day exceeds the required hours that a regular third, fourth, fifth or sixth grade students is required, by the California Education Code, directed to attend.

b) access to the additional funding is restricted by having the student complete six hours of hour-by-hour attendance accounting in order for the district to receive the additional funding, and requiring additional attendance bookkeeping and record keeping,

c) the Community Day School program limits the available instructional strategies which can be used, such as contracted study, which limits the program flexibility required for success,

d) the separation of students in grades K-6 from students in grades 7-8 also creates boundaries that will be financially and/or geographically difficult.

**Strategies for Addressing Identified Gaps in Service**

1. Work with local agencies to find a viable way to implement a Community Day School.
2. Research and implement ways by which students can access CORE curriculum via online classes or other distant learning opportunities.
3. Work with County Mental Health and other psych/social care professionals and organizations to work with the whole student and explore ways in which individual student needs can better be met.
4. Truly individualize placement and rehabilitation plans, with emphasis on the latter, to ensure that the causes of mis-behavior are addressed.
5. Private and public partnerships will

**Placement/Rehabilitation Plans**

If a student does not meet the objectives of his/her rehabilitation plan the following options are available: continued Community Court School or Community Day School placement, district on-campus programs, district off-campus programs, other online or distance learning Amador County Office of Education Programs and the appropriate mental and social health services when necessary.

Amador County Unified School District continues to maintain responsibility for developing a rehabilitation plan for the student, referring the student to an appropriate educational setting, and ensuring that an educational program is provided to the expelled pupil. A plan for that student may consist of both District and county Staff, as well as the students and his/her parent/guardian.

Expelled students who are referred to a Community School/Day Program will develop an Individual Learning Plan in cooperation with the appropriate staff. Part of this plan may include return to the school district of residence. Alternative placement and alternative strategies are developed, with the Court and Community School/Day Center staff, for those students who have difficulty meeting the terms and conditions of their District designed rehabilitation plan.
