

Parent/Guardian Survey - Elementary Report Cards

Amador County Unified School District strives to have clear communication regarding student progress. Standards-based report cards enable parents to receive accurate information based on cumulative student progress throughout the marking period, allow for careful and precise monitoring of student achievement, and reflect grade-level standards and expectations so parents gain a complete idea of their student's progress.

In 2010 the State Board of Education adopted new rigorous academic standards for California. In the following years, ACUSD has worked to implement aligned curriculum, instructional materials, assessments, and beginning in the 2018-19 school year, an elementary report card based on the new standards.

ACUSD's goal is to improve student achievement for all students in every classroom every day. Research supports standards-based grading and reporting as a basis of communication that will help students learn more effectively through better feedback for teachers, students, and parents.

Name: (Optional) _____

School site:

- Pioneer
- Pine Grove
- Jackson
- Ione
- Sutter Creek
- Plymouth

Grade Level: (Check all that apply)

- Transitional Kindergarten
- Kindergarten
- First Grade
- Second Grade
- Third Grade
- Fourth Grade
- Fifth Grade
- Sixth Grade

The purpose of our report card is to communicate progress toward grade level state standards. What is your level of understanding of your child's progress?

- Confident
- Comfortable
- Somewhat Understand
- Minimal Comfort

How user-friendly is the report card, i.e., to what degree is the information on the report card helpful?

- 1 2 3 4 5

How would you describe your understanding of the State Standards related to your child's progress?

- No Understanding
- Some Understanding
- Good Understanding
- Complete Understanding

What do you find most helpful with the Parent Handbook and informational video?

Would you attend a report card informational meeting at your site?

- Yes
- No
- Maybe

What is your understanding of the 21st century skills?

- No Understanding
- Some Understanding
- Good Understanding
- Complete Understanding

Is there anything else you would like to share?
